**Let's Talk Story**

Ask a *kupuna* (elder) or *kūpuna* (elders) to talk story with you.

Tell them what you are learning about wetlands.

Ask them to share some stories about our area. Ask them how the wetlands used to be.

Some questions you could ask...

What was this place like when you were a child?

How have the wetlands in our community changed since you were an *'ōpio* (youth)?

What can we do to *mālama* (care for) our wetlands and our community today?
