

**THE CASE OF THE STRONGEST CORD**

**LEARNING LOG 3**

**NAME** \_\_\_\_\_

**DATE** \_\_\_\_\_

**A Scientific Investigation**

**A. Problem: (What I want to find out)**

---

---

---

---

---

---

**Hypothesis: (If...then...because...)**

---

---

---

---

---

---

**B. Materials: (What I used to do this investigation)**

---

---

---

---

---

---

---

---

---

---

---

---

**E. Analysis of data: (True statements about my data)**

---

---

---

---

---

---

---

---

**F. Conclusion: (What the answer to my question is, and an explanation of the outcome)**

---

---

---

---

---

---

---

---

**G. Measurement:** Explain how you tested the strength and flexibility of your cordage. Why was it important to use standard units of measuring when comparing different types of cordage?

---

---

---

---

---
